One Stop Stainless Shop is one of the leading professional suppliers of quality hassle free stainless steel modular handrail components for glass, cable and tubing.

The modular, mechanically assembled component is manufactured in high grade AISI 316 & AISI 304 austenitic stainless steel, for the South African market to be used in commercial and residential developments.

Our handrail and balustrade system are competitively priced. Basic yet elegant which use joining methods utilized in the aerospace industry, our fittings save considerable cost over conventional welded stainless steel fittings. Our handrail systems are easy and safe to install, no welding, grinding or polishing work is required and will save you considerable time and cost.

We stock a variety of tools and abrasives for the manufacture of stainless steel balustrade. We also stock stainless steel tube and cut to size as per your requirements.
